I, along with other loyal xm radio listeners, are making this issue. We have spent our hard earned money on one or two, or three xm radio systems, adding up to \$500.00, in equipment, and we expect to have a complete service, not a half service, a complete service, including local traffic and local weather. I have spent about four hundred dollars for xm radio's, and service. I want the luxury to have what city, I need. Thanks for your time, sincerely Thomas Ingram
